Background

Building Blocks for Kids strives for a community where children needs are being met. Through organizing community benefits and annual fund-raising events, the non-profit organization awards grants to families who have nowhere else to turn for funding for their children's special needs. Whether that be physical, emotional, or developmental challenges, Building Blocks wants to bridge the funding gap for products and services that help improve the quality of life for children and their families.

"We discovered, through all our research, that there were few if any organizations to help families with immediate medical needs."
